2022-2023

#### Plan

1. Data

Speech to Text Microsoft Azure Tool

## 1. Data (1/3)

Text in XML format

Voice recordings (Large Data)

https://www.kaggle.com/datasets/lazyrac00n/speech-activity-detection-datasets

### 1. Data (3/3)

- Data speech to text
  - mic\_F01\_sa2.wav
  - mic\_F01\_si454.wav
  - mic\_F01\_si473.wav
  - whatstheweatherlike.wav

Voice recordings (Large Data)(.wav)

# 2. Speech Microsoft Azure Tool

Microsoft Speech is a cloud-based voice service that provides transcription, voice fonts and voice translation capabilities.

Microsoft Speech allows developers to add end-to-end, real-time voice capabilities to their applications or services.

### UpComing

**Coding Part** 

Defining the steps to pre-process AUDIOS using Python

2. Using AZURE API to Extract
TEXT from SPEECH & SPEECH TO
TEXT

#### THANK YOU!
